

Study Title: Attitudes Towards Social Robots

Principal Interviewers: [REDACTED]

Key Information: Thank you for your interest in our study. We are conducting interviews with users to capture your attitudes and expectations toward the security and privacy of conversational AI-enabled robots. By participating in a 60-minute interview, you will contribute to the understanding of consumer expectations towards conversational AI-enabled robots.

Procedures: During a video call, you will be asked a number of questions about your experiences with and attitudes toward IoT devices, conversational agents, and conversational AI-enabled robots. The interview will take about 60 minutes and will be audio-recorded (with your consent) for follow-up analysis.

Confidentiality: If the results of this study are published, study data will be as confidential as possible. Any information obtained during this study that identifies you personally, e.g., your name, email address, and employer name, will be kept confidential.

Participant Requirements: Participants must be at least 18 years old and live in the US.

Risks: We do not expect this interview to pose any harm or discomfort to participants.

Benefits: There are no direct benefits to participants.

Compensation: You will be compensated a \$20 USD Amazon gift card for participation. You will receive full compensation even if the interview ends early for any reason.

Voluntariness: Your participation is voluntary. You may stop the interview at any time, for any reason. We are seeking a wide variety of respondents and we will use the short survey form to select participants. Not everyone who agrees to participate will be chosen for the interview portion of this study

Right to Ask Questions & Contact Information: If you have any questions about this study, desire additional information, or wish to withdraw your participation, please contact the Principal Interviewer by e-mail in accordance with the contact information listed at the beginning of this consent form. If you have questions about your rights as a research subject, contact [REDACTED]'s Institutional Review Board at [REDACTED] or at [REDACTED]. If contacting the IRB, please reference protocol [REDACTED].

I have read the consent form, and I want to participate in this interview study:
